Experience

Hostfully — Frontend Developer (San Francisco, CA)
Sep 2022 - present

React | Redux | TypeScript | Cypress | Flutter | Bootstrap

- Focused on migrating a legacy JSP project into a modern React v18 web application (30+ pages)
- Engineered core React components with a focus on scalability, reusability and unit testing
- Test-driven development with Cypress Component and E2E testing
- Optimized React calendar for large datasets with pure JS, ensuring top performance for big clients

Silipi Tech — Fullstack Engineer (worldwide)
Dec 2021 - present

React | React Native | Node.js | TypeScript | Blockchain

- Empowered startups with end-to-end solutions, including MVPs, part-time
- On-demand software development and full stack deployment
- Lauching 3 (and counting!) apps with integrated backend, (SPA) and mobile
- Integrated Web3 features into a production application using DID and VC

Holonic — Senior Software Engineer (Silicon Valley, CA)
Jan 2022 - Sep 2022

React | Node.js | TypeScript | Vue.js | Material UI

- Developed and enhanced UI and logic tailored to Silicon Valley startups
- Searched new technologies, delivered presentations, and knowledge transfers to the team
- Led testing, quality control, QA, and test automation efforts

CI&T — Middle Software Engineer (São Paulo, Brazil)
Jul 2021 - Jan 2022

React | Micro-frontend | Material UI | Jest | Cypress

- Provided outsourced development expertise to various teams and clients
- Built a comprehensive front-end codebase while promoting best practices
- Developed micro-frontend architecture, enabling asynchronous team collaboration

Linx — Frontend Engineer (Cascavel, Brazil)
Dec 2020 - Jul 2021

React | Angular | Material UI | Electron.js | Redux

- Contributed to frontend development for FarmaCloud, a serverless tool for pharmacies
- Developed using Electron.js, Styled-Components and SASS
- Gained experience in Docker, Git, and SEMVER while learning extensively as a junior engineer

…and more:
Mar 2019 - Nov 2020

- **QA Engineer**: this is where I became passionate about testing and learned the impact of it
- **Support Analyst**: understood the struggle of clients and the urgency of bug fixes
- **Technology (IT) Teacher**: variety of IT fields, from Notepad and Photoshop to Windows and PHP!

Skills & Tools

Languages

4+ years exp.:	HTML CSS/SCSS JavaScript
3+ years exp.:	React TypeScript Node.js

Technologies

UI related	Tailwind CSS Material UI Chakra UI Bootstrap Ant Design

	Webpack Gulp Electron.js Storybook WordPress
BE related	AWS Express Fastify Nest.js Postgres & MySQL MongoDB

Education and Certificates

Technician in **Analysis and Systems Development** — Unicesumar University

📅 2020 - 2023

● Software Engineering, Databases, Development using Java, User Interface, Data Structure I, II...

[unfinished] Degree in **Mathematics** — Unioeste University

📅 2019 - 2020

● Differential and Integral Calculus I, II, Analytical and Vector Geometry, Geometric Draw...

Certificates:

● **React.js Formation** - 100+ hours
● **AWS Solutions Training for Partners: Foundations – Technical**
● **The Modern JavaScript Bootcamp** - 30 hours
● **Modern JavaScript (from Novice to Ninja)** - 20 hours
● ...and more, in my LinkedIn profile

Languages

English – Fluent

Portuguese – Native

Spanish – Basic

About me

I'm a passionate developer. I started learning about web development ~4 years ago, where I saw a lot of opportunity for me to grow professionally.
Beyond the lines of code,
I'm a proud father, dedicated gamer (when I have free time), responsible and
I like to spend time learning new things.
